1	the financial	the financial aid department has been so great to me. they have helped me in any way they possibly could.	
2	Very helpful and courteous.		
3	The stipend	The stipends were very helpful for the semesters. if that's what this questions means.	

- 4 More scholarships!
- Love donna if not for her I wouldn't have been able to afford going to school. I'm a full time mom and student so with all her help I was able to continue my education and not have to worry about finances so much.
- Given that this is a Tribal college I can expect that there would be a lot of scholarship information given out tailored towards those of Native American heritage. Still, I feel that those that are applicable to everybody else that are given to us are limited to only a couple people nationwide or are need-based, which due to changes in laws over the last few years made me ineligible for most of them. I felt as though if I wanted financial aid I'd have to go out on my own to find it, which I'm more nervous to try given how many scams exist.
- 7 | Financial aid is very important as with out financial aid a lot of people wouldn't be able to go to school as financial barriers would be to much to handle.
- 8 Donna and Dakota always answered any question(s) in a timely manner.
- 9 Dakota and Donna were awesome and very on top of everything

Question: Comments - Trio

Response Rate: 18.18% (4 of 22)

- 1 I'm not familiar with what TRIO is.
- 2 Is important as it helps individuals who may need guidance and extra help
- 3 I haven't got to know more about TRIO

Question: Comments - My Advisor(s)

1 Very helpful in registering for classes.

- Response Rate: 31.82% (7 of 22)
- 2 They are exceptional advisors to have. They are very understanding when something comes up
- 3 My advisor is understanding and he's nice on working with us to get our work done.
- My advisors have been critical in my success. Not just in advising me on what courses to take to get the most from my degree, but also to help me with stress and time management issues I had been having.
- 5 My advisers were very instrumental in my education.
- 6 I have really enjoyed Renee Froelich as my advisor for the past 2 years. She's very helpful as an advisor and as a teacher.
- 7 Dan is my advisor and he is the absolute best. Always is there for me when I need him even if it is just to talk and figure out what I can do to make it better. Such an awesome person

Question: Comments - Instructors

Response Rate: 27.27% (6 of 22)

- 1 Very knowledgeable about the courses and very helpful.
- 2 They do very well, I have no complaints so far.
- 3 Love all my instructors they have the best personalities and are always helpfula nd kind
- I loved all my instructors. They were so nice and helpful which made me want to come back after I first started. I know a lot of them and theyre better than highschool. If I could of have came here from high school I think I would of had did better job in highschool but I love the college, I learned a lot of interesting stuff. I love that I had an option to take a variety of classes.
- Having instructors that not only knew their material but were also willing to indulge questions related to the topic but not necessarily important to the lesson has made the experience here that much more enjoyable. I have a habit of thinking of the implications of information presented to me outside of the context given, so I thank the instructors for humoring my hypothetical situations and ideas.
- All the instructors Ive had so far are very good at teaching and making sure every student understands what needs to be learned in their classes and they will make modifications if needed or extra time is needed for a certain subject, etc.

Question: Comments - Student Organizations

Response Rate: 13.64% (3 of 22)

- 1 I understand their importance to students as a whole but to me personally I rarely interacted with them. I find I would have to do minimal credit hours per semester(for full time consideration) in order to have any time to participate in them, and that was not a sacrifice I was willing to make.
- 2 | I joined the education club and the culture club and I feel that the more involved in organizations the more connected you are to the school environment

Question: Comments - MySBC Gradebook

Response Rate: 18.18% (4 of 22)

- When instructors did remember to update the grade book I found it invaluable to keep up with how my grades were doing and find out what areas I was having trouble with that I could work on more closely.
- 2 Very important to keep track of work and know what is to be expected of upcoming work, it is very essential to classes
- 3 Let me know how I was doing and if I needed to talk to the instructor.
- 4 I like being able to see my grades as I turn in assignments to see where how I'm doing in the class.

1 What I learned I found to be enjoyable, interesting, and valuable to learn with few exceptions. However, I do wish more specified courses were offered, specifically relating t and microbiology as is offered at other colleges and universities.			
	<b>2</b> Ve	ery happy I o	chose a local college when I moved back and had positive feedback from other graduates
I	3 Sit	tting Bull C	ollege is a great place to be when you want to further your education. I actually got some of my friends to start college because of how friendly it is here.

- 4 I wish I had started right after high school.
- 5 I loved my classes, this was my third attempt at my third college I believe this to have been the best
- 6 I have been enjoying my classes this year and hope to continue on to a Bachelor's degree.
- 7 I feel that sitting bull is one of the best places to get your education at. Everyone is so helpful and its just a great school to be a part of.
- 8 I absolutely LOVED my time here at Sitting Bull College.

Question: Last Chance for any comments regarding this survey, other services not listed in this survey, etc.

Response Rate: 27.27% (6 of 22)

- The school NEEDS a dedicated science building. While the classes are able to be taught in the current facilities well enough, the limitations placed on students and staff by space alone may interfere with the quality of education received. I have seen and heard stories of amazing equipment that the school already owns but students and staff alike are not able to benefit from due to the limitations on space. If I were able to pick one large project for the school to focus on it would be to increase the space available to science students, as career opportunities in medicine, research, and biology are in demand in this country when the applicant is well-educated.
- The Immersion Nest- Very Important and very satisfied- I love the Nest and what they are teaching my son. I love how they incorporate the Lakota language into a school setting I wish the school went up to higher grades as I would have put all my kids into the school. But I love what they are teaching my son. It is a family environment I love all the faculty at the Nest
- 3 It was a great opportunity to study here at the college. It was very convenient for me. AND I plan on coming back for my bachelors and another degree in criminal justice if I can. :)
- 4 I wish accounting was a major.
- 5 I love this college since the beginning everyone has always been kind to me and helped in each way even though there are a few girls who don't like to help me I still love this college and recommend it to anyone who wants to learn. Just keep the daycare running and ill be back in the spring
